PROJECT DESCRIPTION:

Bus Rapid Transit (BRT) is a new mode of transit in San Francisco and represents a package of features that together create rapid and reliable transit service for the benefit of passengers along a given corridor, and the transit system as a whole. The Van Ness Avenue BRT Project will operate existing bus service in a dedicated transit lane for a two-mile-long stretch from South Van Ness Avenue at Mission Street to Van Ness Avenue at Lombard Street by converting a northbound and a southbound mixed-flow traffic lane in the center of the roadway to dedicated transit lanes. Project features include: at or near level boarding, consolidated transit stops, high quality stations, platform proof of payment, traffic signal optimization,
fewer left turn pocket lanes, transit signal priority, pedestrian safety enhancements, and replacement of the overhead contact support system/streetlight system, including poles.

DETERMINATION:

The City and County of San Francisco, by and through the San Francisco Municipal Transportation Agency (SFMTA) Board, by SFMTA Board Resolution No. 13-214, decided to carry out or approve the project on September 17, 2013. A copy of the document(s) may be examined at the San Francisco Municipal Transportation Agency, 1 South Van Ness Avenue, 7th Floor, Secretary to the SFMTA Board of Directors, San Francisco, CA 94103.

1. An Environmental Impact Report has been prepared by the SFCTA and considered by the SFMTA. It is available to the public and may be examined at the San Francisco County Transportation Agency, 1455 Market Street, 22nd Floor, San Francisco, CA 94103.
2. A determination has been made that the project in its approved form will have a significant effect on the environment.
3. Findings were made pursuant to the provisions of CEQA.
4. A statement of overriding considerations was adopted.
5. Mitigation measures were made a condition of project approval.
6. A mitigation monitoring and reporting program was adopted.

John Rahaim
Planning Director
